SECTION C - DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

	<u>Regulatory Cite</u>	<u>Title</u>	<u>Date</u>
C-1	52.211-4015 (TACOM)	CONFIGURATION CONTROL - ENGINEERING CHANGES	APR/2004
(a) DEFINITIONS:			
(1) Engineering Change Proposal (ECP). An ECP is a suggestion that we (the Government) permanently change some requirement of the Technical Data Package (TDP). ECPs can be issued before or during contract performance. NOTE: The current Government Standard allows us ninety days to process routine ECPs. If you (the contractor) need a response in less than ninety days to meet contract requirements, you should consider submitting a deviation along with your ECP.			
(2) Request for Deviation (RFD). A RFD is a one-time request to deviate from TDP requirements. You must submit your deviation request once you realize that you desire to deviate from the TDP requirements. You can request a deviation for a specific number of parts or the entire contract quantity.			
(3) Value Engineering Change Proposal (VECP). A proposal that --			
(i) Requires a change to the instant contract; and			
(ii) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics; provided, that it does not involve a change --			
(A) In deliverable end item quantities only;			
(B) In research and development (R&D) end items or R&D test quantities that is due solely to results of previous testing under this contract; or			
(C) To the contract type only.			
(4) Notice of Revision (NOR). A NOR describes the proposed changes to a technical document being requested by an ECP.			
(b) When will TACOM start processing change requests? TACOM won't start processing any ECP, VECP, or RFD until we receive the ACO's comments (see paragraph (e) below) and the ECP, VECP, or RFD documentation.			
(c) Contractor Responsibility. ECPs, VECs, and RFD shall contain information per the instructions outlined on the Data Delivery Descriptions (DDD) which can be found at the following website: http://contracting.tacom.army.mil/engr/engrchange.htm . Forms for preparing an ECP, VECP, or a RFD can also be found at this website. You may use other media, as long as you give us all the information outlined in the DDDs.			
(1) Identify the two-digit Weapon System Code (WSC) on your submittal. The WSC for this procurement is MM.			
(2) The Contractor shall submit ECPs/VECPs/RFDs to the Government electronically. You must use one of the following electronic mediums: 100 megabyte Zip*-disk, 3 1/2 inch disk, 650 megabyte CD ROM, or E-mail. (E-mail files must be sized 3.5 mb or less.) Identify the software application, and version, that you used to create each file submitted.			
(3) ECPs/VECPs/RFDs submitted in paper form are unacceptable and will be returned. You must use one of the following electronic formats:			
(i) Files readable using these Microsoft 97 Office Products: Word, Excel, PowerPoint, or Access. Spreadsheets must be sent in a file format that includes all formulae, macro and format information. Print image is not acceptable.			
(ii) Files in Adobe PDF (Portable Document Format).			
(iii) Files in HTML (Hypertext Markup Language). HTML documents must not contain active links to live Internet sites or pages. All linked information must be contained within your electronic ECPs/VECPs/RFDs and be accessible offline.			
(iv) Other electronic formats. Before preparing your ECPs, VECs or RFDs in any other electronic format, please e-mail the engineer, copy-furnished to the buyer and ACO, to obtain a decision as to the format's acceptability. Failure to e-mail the engineer to seek an alternate format's acceptability may result in rejection of your submission. All alternate methods must be at no cost to the Government. NOTE: The above formats may be submitted in compressed form using self-extracting files.			
(d) Submittal Procedures for ECPs/VECPs/RFDs.

- (1) Send one copy of the ECP, VECP or RFD in electronic format to your ACO.
- (2) Send one copy of the ECP, VECP or RFD in electronic format to the buyer listed on the solicitation/ contract document.

WARNING - Submit complete, legible, virus free packages per paragraphs 1 and 2 above, or we may return your ECP/VECP/RFD without processing them.

(e) ACO Responsibility. Within ten working days from the day you receive the contractor's request, the ACO must prepare Comments on the ECP, VECP, or RFD in electronic format, and forward it as follows:

Email a copy of the contractor's request and ACO comments (DD Form 1998) to AMSRD-TAR-E@tacom.army.mil and the buyer identified in block 7 of the solicitation cover sheet (SF 33), block 5 on the Standard Form 26, or block 6 on the DD Form 1155. Indicate end item application (if known) in subject line, along with the NSN and contract number.

(f) Approval of ECPs, VECPs and RFDs.

(1) ECPs should be used to make permanent changes in the Government Technical Data Package (TDP). Contractual relief should be requested using a Request for Deviation. This is because the Government requires more time to analyze any proposal to permanently change the specification or TDP. Cost saving improvements to the TDP should be submitted as a VECP, if a VE clause is contained in the contract.

(2) ECPs. TACOM will review and make a decision within the ninety day timeframe. Notification of our decision will be made by the contracting officer or representative.

(3) RFDs. Decision on RFDs will be made within 30 days from the date we receive them from the ACO.

(g) Processing Emergency and Urgent ECPs. Ordinarily, ECPs submitted by the contractor will be deemed routine. If you submit an ECP that you consider to be an emergency or urgent (as defined in paragraph 11 of DDD for ECPs), you must immediately notify the PCO. TACOM will review the criticality of the ECP, and, if we determine that it is urgent or critical, we'll follow the appropriate processing time-frames as outlined in paragraph 11 of the DDD for ECPs.

(h) Reminder - Only the PCO can change the Contract. NO OTHER GOVERNMENT REPRESENTATIVE is authorized to make a commitment for, or bind the Government.

(i) RFDs shall contain sufficient pricing data to determine if a downward equitable adjustment to the contract is required.

(j) Questions.

(1) Questions about preparation and submittal of change request should be directed to the Government Quality Assurance Representative (QAR).

(2) Questions about the status of change requests you've already submitted, contact the buyer. You can find the buyer's name, number and e-mail address in bmajewskv@tacom.army.mil block 7 of the solicitation cover sheet (SF 33), block 5 on the Standard Form 26, or block 6 on the DD Form 1155.

Special instructions and/or tailoring of the SPI is detailed in the Supplemental Instructions below. A prototype package is required to validate the sizes and fit requirements of the SPI. Minor dimensional and size changes are acceptable provided contractor provides the PCO and ACO with notification 60 days prior to delivery. Any design changes or changes in the method of preservation that provide a cost savings without degrading the method of preservation or packing or affecting the serviceability of the item will be considered and responded to within 10 days of submission to PCO and ACO. Government reserves the right to require testing to validate alternate industrial preservation methods, materials, alternate blocking, bracing, cushioning, and packing.

E-4	52.246-4023 (TACOM)	STATISTICAL PROCESS CONTROL (SPC)	FEB/1998
-----	------------------------	-----------------------------------	----------

(a) Definitions. Refer to ANSI-EI Standard 557, Statistical Process Control Systems, for a listing of terms and definitions used in this clause that are associated with statistical process control (SPC).

(b) As the contractor, you will ensure the quality of the items furnished on this contract, whether produced at your facility or at a subcontractor's/vendor's facility, using SPC techniques that are based on statistically valid and established methods. A description of your SPC program must be submitted as part of your proposal in response to the solicitation (see Section L). Upon contract award, the SPC program described by the successful offeror becomes part of the contract.

(c) The SPC program is intended to be dynamic. It may be changed when changes are of a constructive nature, and do not adversely affect the quality of the process, and product. The designated Government Quality Assurance Representative, (QAR), shall be allowed to review all proposed changes to your program prior to implementation.

(d) As a minimum, your SPC program must address the following elements as they will apply throughout the life of the proposed contract.

(1) Identification of the specific statistical process control techniques that you will apply, for all processes that use SPC.

(2) Process capability (Cpk) studies for the processes being controlled. For variable data, the minimum Cpk for statistical control shall be 1.33. For attribute data, a minimum process average of 99.73% is required. For critical parameters/characteristics, the minimum Cpk shall be 2.0.

(3) Criteria for determining out-of-control conditions.

(4) Corrective actions to be taken if an out-of-control condition is detected.

(5) A description of the training program used to implement and support your SPC program.

(6) A plan for the performance of audits, and the methods for review and analysis of the audit results.

(7) Your system for the identification and selection of characteristics for the application of SPC. Candidate characteristics shall be composed of (i) critical and major product and performance characteristics identified in the Technical Data Package (TDP), and other contract documents, (ii) characteristics deemed vital or significant based on a formal process analysis, and (iii) characteristics identified by performing Pareto Analysis on internal and external failures.

- (10) Application, and use of Pareto Analysis, i.e. (i) analyze the need for new process control projects, and (ii) ensure that established controls are achieving continuous improvement.
- (e) You may request a reduction or elimination of contractually required lot sampling based on demonstrated effectiveness of your SPC program. To obtain our approval of such reduction, submit a request that refers to this clause. The request must include documentation, acceptable to the ACO, including process and inspection capability studies, control chart trends, and results of final inspections. Any reduction of inspection shall apply to the plant or supplier specified in the request, and shall be subject to audit by you, and by us.
- (f) We reserve the right to withdraw any approval for reduced inspections, if we (i) see any indication of loss of process control or deterioration in product quality, where (ii) an assignable cause cannot be readily identified, corrected and permanently resolved. Notification of such withdrawal will be in writing from the ACO-designated Government QAR, or the Administrative or Procuring Contracting Officer (ACO or PCO).
- (g) Your SPC program shall be subject to evaluation throughout the life of the contract by the ACO/QAR as part of your quality program. (iii) Otherwise successful offers of eligible products under the Trade Agreements Act when the dollar threshold for application of the Act is exceeded (see 25.402 of the Federal Acquisition Regulation (FAR)); and
